WEBSITE MANAGEMENT

Keeping your website working, relevant and optimized for search.

History of ClackaNET

A new type of web hosting was developed out of the need for an easy to manage website interface without confusing server software such as cPanel. Everything in one place with one price.

Our goal is to make websites effective, secure and easy to use.

Cloud Infrastructure

Our cloud based infrastructure is optimized using web droplets so you can have full control of your own dedicated resources.

Droplets act as a fail safe for corruption or compromised files. You can also borrow more resources if you have high demand at no cost.

Security is Our Top Concern

Your business reputation can be lost if you get hacked.

We have never been compromised and strive to provide best in class firewalls, virus protection and disaster recovery services for all our clients.

24/7 Website Management

Our tech team is always looking out for your website. We manage your domain, DNS, security, WordPress updates, and back-ups along with keeping your website working.

We are more than a web host!

Connect with Customers

Our system helps connect you with more of your customers.

We don't just manage infrastructure, we also help your business succeed.

READY TO ORDER

Search Engine Optimization

We analyze and manage your Google Search Console, Analytics, and Google My Business Accounts to ensure we optimize your website for best search results.

We raise your Domain authority by fixing broken links, forwarding 404 pages, adding internal & external links to ensure you get real results from our service.

Why Wait?

- We provide a seamless transition to our services.
- We give you full access while managing everything for you.
- We provide full reporting and analytics to prove our value and give you a path to success.

WE ARE READY WHEN YOU ARE!

We know as a business owner **you** are busy and "why fix something that isn't broken?" Well... one thing you don't want to wait on is the success of your business. Your website & online reputation **is** your business.

Treat it like your success depends on it.
